- ☐ Identify the most important number of my organization. This number will align everyone to a common outcome and guide every team's decision.
- ☐ Come up with the ideal most important number for each of the teams in the organization.
- ☐ Decide where to focus the resources. Identify the more impactful drivers for my number and concentrate my team's efforts on that.
- ☐ Know what to measure and create a scoreboard. Define the most critical metrics to guide decision-making and provide an accurate snapshot of progress.
- ☐ Position my company to sell for the highest possible amount of money and real value.
- ☐ Futureproof my company. Make sure that the company can keep going and growing even if I'm not working on it.
- ☐ Always have enough capital in place to seize opportunities to scale the company. Make sure that my credit lines are available.
- ☐ Always create value. Customers aren't buying the pedigree of the people that work at companies. They're buying products or services from their perceived buying value.
